# JESÚS ALEJANDRO JUSTO GARCÍA

COMPUTER ENGINEER

## EDUCATION

**2019 - 2024**

### Computer Engineering

Bachelor's Degree - Instituto Tecnológico de Ciudad Guzmán

**2023**

### Google Cloud Computing Foundations

Certificate - Google Cloud Computing Foundations ACADEMY

**2023**

### Basics of User Experience Design

Certificate - Google Career Certificates

## EXPERIENCE

**2024 - Current** Autotransportes Pilot

### IT Analyst

Management of Office accounts, and license management through the Microsoft 365 Admin Center. Provided technical support and user assistance to ensure seamless daily operations. Conducted comprehensive training sessions on the ticketing platform. One of my key accomplishments was successfully migrating corporate email accounts from a Neubox server to a Microsoft environment, ensuring a smooth transition with zero data loss. This process involved meticulous planning, data integrity verification, and user coordination to minimize downtime and disruption.

**2023 - 2023** Amocali, A. C.

### Web Developer & UX Designer

I collaborated in the development and implementation of a web platform for efficient management of empty agrochemical containers. The solution addressed the low or non-existent recovery of these containers by providing forms, geolocation tools, and alerts to improve collection on a national level, solving issues related to real-time information and statistics for better decision-making.

**2022** Florimiel

### Software Developer

I developed a desktop Point of Sale (POS) system using Visual Basic with SQL Server integration for a store specializing in selling honey products. The system streamlines sales management, inventory control, and customer information. It also includes features for generating statistical queries for business analysis.
